Property development solutions

Growthpoint Trading & Development is a specialised business unit that has built a track record of creating assets and value for our business, while also providing future-focused property solutions tailored to the needs of our clients and partners.

In addition to our exceptional variety of in-house skills, we work closely with our strong and established network of leading professionals and construction companies to deliver holistic, tailor-made, end-to-end solutions.

Thriving, efficient, and
perfectly aligned with your vision.
We make it real.

Innovation: Building for Tomorrow, Today.

The world has changed.
The fundamental shift
is that innovation,
creativity and ideas are
the new economy.

We integrate smart technologies to create buildings that adapt and learn, optimising efficiency and tenant comfort.

Our flexible design principles ensure spaces can seamlessly transform to meet changing needs, fostering agility and growth.

We push the boundaries of traditional workspaces, designing with adaptability in mind and creating inspiring environments that empower collaboration and innovation.

Investing in more than structures, we're committed to laying the groundwork for your future success.

Sustainability is our commitment

We strive to create sustainable economic, environmental, and social value for all.

Our ESG pillars are centred on:

Thriving Business 

Thriving people and Communities 

Thriving Environment 

With our climate response strategy, we implement a robust carbon-neutral drive with data-driven targets that benefit business and stakeholders.

We've implemented various 6 Star Green Star ratings, Edge certifications and Leads certifications.

Client-centric approach

Whether you are an established player or a flourishing start-up, we take the time to understand your unique business needs, the specifics of your operating environment, and the ambitious vision you have for your growth.

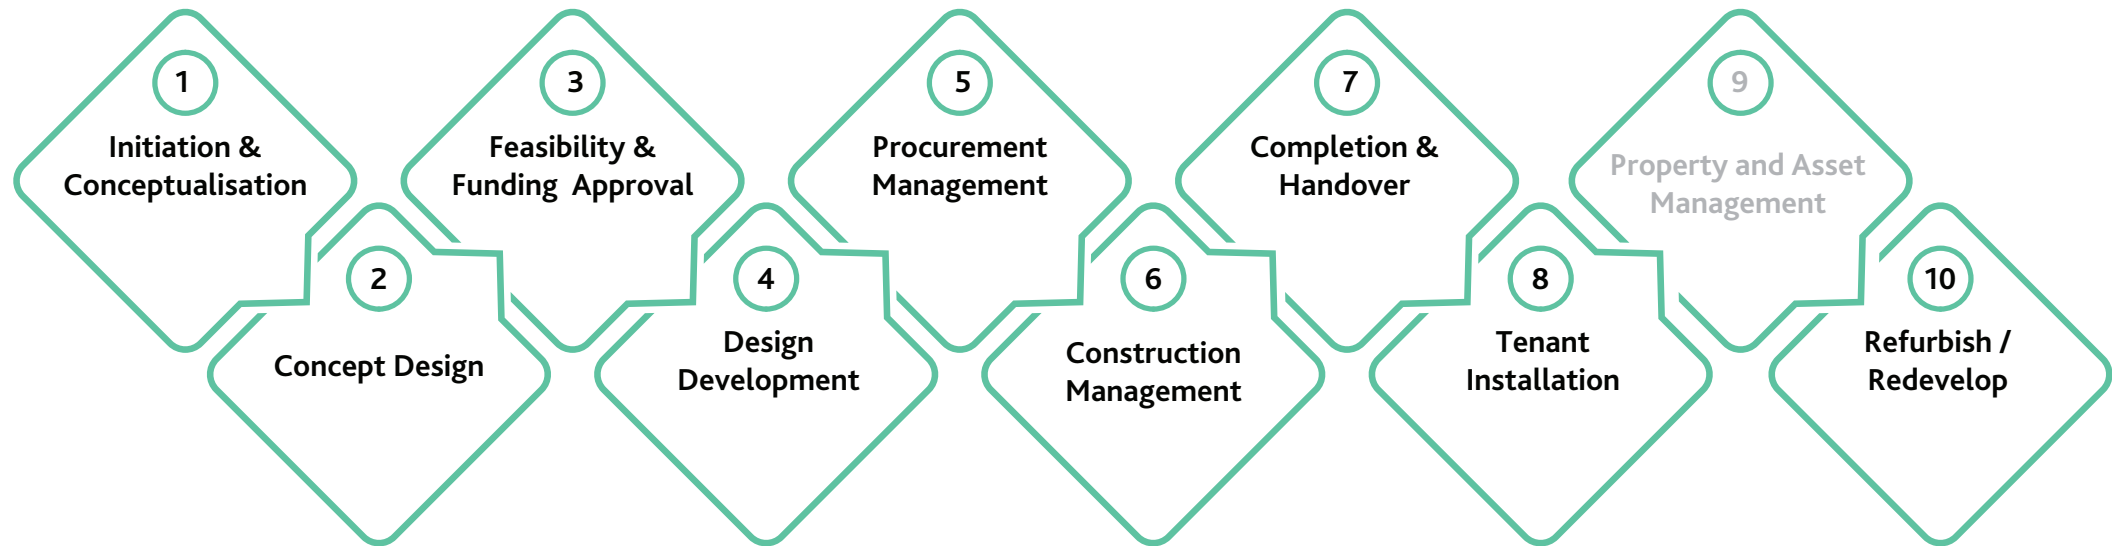

This approach ensures we craft spaces that empower you to thrive, adapt, and achieve your goals.

Reinvent the future.

Integrated Development Process

Our expertise extends beyond construction, with skilled professionals managing every aspect of your project.

- ✓ Development management
- ✓ Third party development facilitation
- ✓ Workplace solutions
- ✓ Strategic advisory
- ✓ Retail tenant coordination
- ✓ Land acquisition and site assembly
- ✓ Precinct and infrastructure development
- ✓ ESG and sustainability interface
- ✓ Lifecycle planning
- ✓ Data Centre Solutions
- ✓ Project Management

We don't just break new ground,
we cultivate it.

Sector Specialisation

We don't believe in a one-size-fits-all approach. With expertise across diverse sectors, we understand the bustling energy of retail and the collaborative hum of office spaces.

Our specialised knowledge ensures your project aligns perfectly with its intended purpose, whether it involves efficient, functional industrial units, the welcoming ambience of hospitality settings, or the patient-centric design of healthcare facilities.

Our expertise covers:

Office

Industrial

Retail

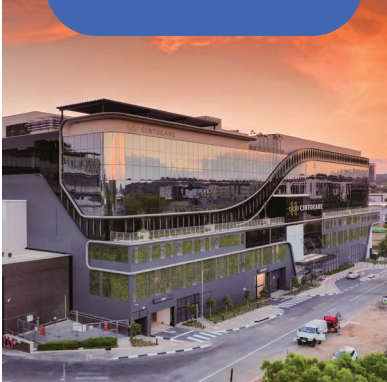

Workplace Solutions

Residential

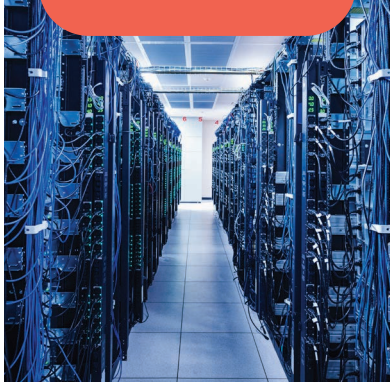

Healthcare

Student Accommodation

Data Centres
